32 AT "SCHOOL" MASS MEETING

Call Based on Appeal for Outside Action on Board Deadlock Gets Small Response

O.K.L. Twenty-four men and eight women responded to the call of L. Howell Lewis and others to the mass meeting at the court house Monday night to take action against the city board.

Mr. Lewis brought with him a petition asking the district judges to empanel a grand jury to investigate the school board, charging gross neglect of duty and misadministration of office. Judge Farney was present and at the request of Mr. Lewis explained the method of securing a grand jury and what constituted the charges to be preferred. There was little interest in the meeting.

Mr. Lewis called on Judge Farney, Mr. Lewis followed and stated he had a petition already drawn up and was appointed by the chair to be chairman of the committee to get the necessary one hundred signatures.

However, the man who drinks his soup is, as a rule, preferable to the one who inhales it.

At Less Cost—

There's more nutritive value that the system will absorb in Grape-Nuts than in either meat or bread.

A remarkable fact.

Weight for weight, a package of Grape-Nuts supplies one-third more nourishment than a roast of beef and at about half the cost. A roast of beef is about twenty percent waste and there is a shrinkage in cooking. Grape-Nuts comes ready cooked—and not a crumb need be wasted.

Think it over!

Then there's bread—white bread lacks certain elements essential to building brain and body. Why? Because in milling white flour, four-fifths of the precious mineral content (all important for health and life) is thrown out with the bran coat of wheat, to make the flour look white and pretty.

Grape-Nuts FOOD

not only supplies all the brain- and bone-building, nerve- and muscle-making phosphates of the wheat, but all the rich nutriment of malted barley.

Besides, Grape-Nuts is easily digested—generally in about an hour—white bread and beef require about 2½ hours.

Grape-Nuts comes in germ-proof, moisture-proof packages—ready to serve with cream or milk—a delicious ration, economical and highly nourishing.

SUFFRAGISTS IN THE SADDLE

First Women Voter's Convention Ever Held In U. S. Starts 3-Day Session

PHILADELPHIA. Sept. 14.—The British steamship Saint Leonards, the first vessel to clear from this port for Vladivostok by way of the Panama canal sailed today for the Siberian port. Fifteen locomotives and about ten thousand tons of steel rails comprise the cargo, valued at about \$75,000. It was sent on the order of the Russian government.

The convention which is being held under the auspices of the congressional union for woman suffrage will be in session three days and it is expected that more than 3,000 delegates will be in attendance. Representatives are here from 28 states.

Discussing the convention today Miss Alice Paul, chairman of the national congressional union of Washington, D. C., said:

"This convention, representing 4,000,000 enfranchised women marks, we believe, the beginning of the end in the long suffrage struggle. One-fourth of our national house of representatives, one-fifth of the vote for presidential comes from states where women are voters. Thus with leverage there is every reason for us to believe that the national suffrage amendment will be passed by the 64th congress. The convention has been called to devise ways by which the women voters may use their voting strength to win suffrage for all other women."

A Pretty Ribbon Concert

"CORSET DE PARIS"—a pretty concert of the season. The prettiest one ribbon, as the Parisian would say. A woman who dislikes a corset would approve of this created in ribbon. Adapted to young girls as well as to the adult figure, desiring absolute ease and comfort. The boning is so slight, it is not felt at all. Corset is medium in height, practically the same (6) around top. Medium long. The design is so constructed that the ribbons will not wrinkle or catch during wear. The model is recommended for athletes or even general wear. To see this garment on the figure is to appreciate it. Tailored bow finishes the edges at top. Two pairs hose supporters. It looks like a cheap dress, since it is in soft lace, with the natural figure curves defining beautiful lines and contour. Colored—white, blue or pink, \$1.50 to \$2.00.

Auto Gloves, \$1.50 to \$2.00

The Glove Store is just in receipt of a new line of Women's Gunner gloves that are ideal for motoring or driving. Towing in the strong demand for a glove that gives sufficient fit and service for all-round service, the supplement is unusually large and the gloves are well made. C. M. Lurttine and family of Oklahoma City were guests of Mr. and Mrs. Frank Wright Sunday.

It is the best news heard while in New York," said Mr. Halliburton, and numerous other merchants from the Southwest, in New York at the time wore the smile that won't come off. Practically all of our Christmas toys had been contracted for prior to March 1, 1915, and tied up; that is, all our imported toys. Now they will come right through in time for the holidays.

Expert More Concessions

"With the permission of this order in council, it was freely said among the importers in New York that a number of other modifications will be made by Great Britain, the purpose of which will be to lessen the difficulties now surrounding neutral shipping. Of course, there was nothing authentic about it, but it was the general belief that further concessions will be made."

Mr. Halliburton was asked to give a reason for this changed attitude on England's part. He said that it was his understanding that the German and Austrian goods had been released as a result of the changed attitude of Berlin toward the United States.

Concerning the business outlook, as viewed from the financial as well as the fashion center of the United States, Mr. Halliburton said that he found nothing but optimism in Gotham.

"Buyers and merchants were there from all sections of the country," said Mr. Halliburton, "and they were placing the largest orders in history. Such optimism on the part of visitors naturally made the New York importers and manufacturers happy and
